Author abbrev. (Botany): C.N.Page

Christopher Nigel Page
***Ph.D.* 1942 – 2022**

was an outstanding botanist and plant taxonomist. One of the most outstanding researchers of species from the Equisetum genus. He always approached all scientific and popular science inquiries with great warmth. He provided advice, taught, but also constructively reprimanded. He happily agreed to accept the title of special honorary member of the IEA.
